

SRIJANI SINHA

Data Analyst

Kolkata, India | reachtosrijani@gmail.com | +91 6296574171
[Github](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with strong expertise in transforming raw data into actionable insights. Proficient in data collection, cleaning, preprocessing, and advanced statistical analysis using Python, SQL, and visualization tools. Experienced in building interactive dashboards and reports that drive data-informed business decisions. Demonstrated ability to identify trends, patterns, and anomalies through exploratory data analysis. Adept at communicating complex findings to technical and non-technical stakeholders. Currently pursuing B.Tech in Information Technology with a strong academic record (CGPA 9.03/10) and hands-on experience in real-world data analytics projects.

EDUCATION

Government College of Engineering and Ceramic Technology	2022 – 2026
B. Tech in Information Technology	CGPA: 9.03/10
Kandi Raja M.C Girls High School (WBCHSE Board)	2021
XII (Science)	Percentage: 89.45%

TECHNICAL SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)
- **Databases:** SQL (MySQL, PostgreSQL), Database Design, Query Optimization
- **Data Visualization:** Power BI, Tableau, Excel Dashboards
- **Data Handling:** Data Cleaning, Preprocessing, ETL Pipelines, Data Transformation
- **Tools & Platforms:** Excel (Pivot Tables, VLOOKUP, Advanced Formulas), Jupyter Notebook, Google Sheets
- **Statistics:** Hypothesis Testing, A/B Testing, Probability, Descriptive & Inferential Analytics
- **Version Control:** Git, GitHub

PROJECTS

- **YouTube Analytics Case Study** [GitHub](#)
Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Google Colab
 - Analyzed YouTube channel data to uncover content trends, engagement patterns, and viewer behavior insights using statistical methods and interactive visualizations for data-driven content strategy recommendations.
- **Customer Behaviour Analysis** [GitHub](#)
Python, SQL, Power BI, Google Colab
 - Conducted comprehensive analysis of customer purchasing patterns and behavioral trends using SQL queries and Python for data extraction and transformation, visualized insights through interactive Power BI dashboards to support marketing strategy optimization.

CERTIFICATIONS

Data Analyst 101	Nov 28, 2025
Worked on Python libraries and Excel to analyze, manipulate and visualize data [Certificate]	
SQL Analytics and BI	Nov 23, 2025
Worked on relational database and generated dashboard using BI on databrick [Certificate]	
Python for Data Analysis	Dec 24, 2025
Certified in Python for data analysis, visualization, and insights. [Certificate]	

ACHIEVEMENTS & LEADERSHIP

- PR Lead – Bytemonk, Official Tech Club of GCECT
- Solved 120+ SQL problems on LeetCode, demonstrating strong database querying skills
- Maintained consistent academic excellence with CGPA of 9.03/10
